ALDER BREADBOARD

ABOUT THIS PRODUCT

Solid lay-up from surfaced stock. A true and square product for time saving end-use applications. Breadboards are stocked in common sizes, but for special projects, contact us for custom sizes, with or without pulls.

FEATURES:

- Alder pull 1 end, oak pull 1 end.
- Smooth finished surface, ready for use.
- Easy to maintain.
- Ready for installation!

APPLICATIONS

- Kitchen Cabinets
- Kitchen Counters
- Commercial Tops
- Cutting Boards

BUTCHER BLOCK (COUNTERTOP)

ABOUT THIS PRODUCT

Finest selected northern hard maple. Great care is used in selecting matched and light edge grain. Bonded with resin adhesive. Finished with an acrylic finish.

FEATURES:

- Pre-Finished, smooth surface, ready for use.
- Repels most household solvents.
- Stains, scratches, and burns can be easily repaired.
- Intended to be used as a true cutting surface.

APPLICATIONS

- Kitchen Cabinets
- Kitchen Counters
- Commercial Tops
- Cutting Boards

PLEASE NOTE: Due to climatic and humidity changes, slight warpages may result. Allow panels to acclimate to their new surroundings prior to installation. Proper installation procedures must be followed. Call an AWI sales representative for details.

ABOUT THIS PRODUCT ↑

Continuous veneer rolls (CVR) 500' in length, for automatic edgebanders. Selected and graded veneers are end matched for color and grain consistency, then finger jointed and laminated to a continuous fleece membrane. The rolls are then fine sanded for improved finishing.

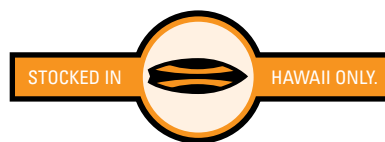

FEATURES:

- Selected and Graded Veneers.
- Standard Industry Grade.
- Economical.
- Requires glue. See application specs on edgebanding glues in this section, page 10.

OPTIONS & SPECIAL ORDERS:

- Available in 5/8" to 2" widths.
- PVA coating, cut to size and no fleece backing.

ASK FOR A FREE LAMINATE CROSS REFERENCE GUIDE.

ABOUT THIS PRODUCT ↑

Preglued continuous veneer rolls. The finest veneers are selected and finger jointed into continuous coils and then fleece laminated. The edging is then sanded and flexed to produce a thin (.018" thick), highly flexible veneer that is fast & easy to apply to any contour or shape.

FEATURES:

- Easy to apply.
- Wraps contours and shapes.
- Trims cleanly and easily.
- Superior bonding strength.

ABOUT SHEET VENEER

SHEET VENEER is real wood veneer sheets “laminated” to either a paper or wood backer. Ready to finish, smooth and consistent surface accepts stains and finishes uniformly. Paper backed installation is user friendly; trim with scissor or razor knife, lay up with PVA glue or contact cement. Wood backed installation is similar to that of high pressure laminate.

FEATURES:

- The paper backed flexible veneer sheets have been “flexed” for easy handling and contour work applications.

APPLICATIONS

- Cabinet Refacing
- Veneer Inlays
- Exotic Species Furniture
- Contour Veneer Work
- Drum Tables

NOTES:

May be special ordered in bookmatched, sequenced and cross-grained versions.

APPLICATION

- Smooth, clean surface is essential.
- Apply adhesive per manufacturer’s instruction.
- Use scraper tool or veneer roller (not a “J” roller) applying firm pressure in direction of grain.
- Apply oil/stain sparingly, wipe off immediately.
- Material should be stored flat.
- Prior to fabrication, allow material to acclimate to ambient conditions for 3 days.

FINISHING

- Wait 24 hours after laminating.
- Sand with a fine grit sandpaper.
